THE CEMENT RATIONING AND LICENSING ORDER 1948:

Rationing of Cement was first introduced in the State in 1943 and the Chief Engineer in Mysore was the Chief Cement Rationing Authority. On the formation of the Civil Supplies Department in 1944 the Controller of Civil Supplies was made as the Chief Rationing Authority.

To put the distribution of cement on a more rational basis, a cement rationing order was brought into force during 1948. This order provided for the fixation of prices of all brands of cement in addition to the rationing of the commodity. It was later found necessary to introduce licensing also and this was done on 14th September 1948.

This order is not based on any parallel order of the Government of India. A copy of the order is enclosed. A copy of agreement if any between this Government and the Governments of any of the Provincial Governments is not available in this office and it may be available in the Secretariat Collections.

THE HOARDING AND PROFITEERING PREVENTION ACT 1948:

In order to take effective steps against Hoarding of and Profiteering in all consumers goods during the war years the Government of India passed an H.P.P. Ordinance in 1943 and fixed up the prices of various arricles under section 3 of that ordinance. A parallel order was passed in the State also under name H.P.P.(Emergency)Act 1944 (ActVIII of 1944) and it continued till August 1948 but without the Schedule of prices after the war was over. This emergency Act was

(Contd)

THE PAPER CONTROL ORDERS:

There are four paper control orders now in force though originally there were six. All these are entirely based on and parallel to similar orders passed by the Central Government. All these orders were passed between 1942 and 1944.

Among these the paper price control order 1946 which replaced the paper price control order of 1944 and the paper( price of imported paper) control order which is continued from 1944 fix up respectively the prices of indegenous and imported varieties of paper. The schedule of prices are revised from time to time.

The paper control (Economy) order 1946 is the second edition of the similar order of 1944 which again had superseded the paper control (Economy) Order of May 1944. The rigidity of the original Order has been greately reduced in the order of 1946 in view of the improved paper situation. This order aims at the economy in the use of paper (other than News print) by fixing the quamtity of paper to be used by presses, publishers etc., by requiring permission of Government to operate any press newly or start a new news papers etc., copies of these orders and coping agreements if any are not available in this office and they may be available in the Secretariat Collections.

THE MYSORE DRUGS (CONTROL EMERGENCY) ACT 1949 (ACT LX III of 1949.

This continued till 1946 when a revised order was passed on 19-2-1946 revising the prices of all the scheduled drugs. After the end of the war the control over drugs was withdrawn . But as prices of some essential drugs went up soon after the devaluation of the rupee during last month the Mysore Drugs (Control Emergency)

(Emergency) Act .1949 was passed fixing of the prices of certain drugs as in the schedule and providing for certain other items of control over drugs.

These orders are based on the Government of India Notifications Copies of the Mysore Drugs control order 1946 and the Mysore Drugs (Control)(Emergency) Act. 1949 are enclosed. Copies of agreements are not available.

THE MYSORE COTTON CONTROL ORDER 1949.

It provides for the licensing of dealers in Cotton the restriction of movement of cotton and the fixation of the flooring an d ceiling prices etc.,. Its aim is to provide adequate supplies of Cotton to the mills. The Mysore Cotton Licensing Order 1949 and the Cotton movements Control Order are now repeated.

## OFFICE OF THE COMMISSIONER FOR FOOD PRODUCTION AND *EX-OFFICIO* CONTROLLER OF CIVIL SUPPLIES IN MYSORE BANGALORE.

Notification dated 6th October 1949.

*(Revised arrangements in yarn distribution.)*

**No. T. 2718.** The present distribution arrangements in yarn remained in force since the reimposition of controls whereby the allotment of yarn to powerlooms was being arranged by the office of the undersigned and for Handlooms through the Deputy Commissioners of the Districts concerned except in the case of Bangalore City and Bangalore District where the distribution was arranged by the office of the Controller of Civil Supplies.

2. However since February 1949, the demand for yarn slackened owing to increase in yarn prices and lack of demand for handloom and powerloom goods as a result of competition by mill-made cloth which was abundantly available comparatively at cheaper rates. Consequently the demand for yarn decreased and large yarn quotas had to be lapsed to the mills.

3. To overcome the above difficulties and to reduce the cost of yarn in order to assist the handloom and powerloom industries in the State, the following revised arrangements are laid down in exercise of the powers conferred on me by Clause 30 and sub-clause (1) (a) and (b) of Clause 32 (1) of Textile Control Order, 1948 and sub-clause 1 (a) of Clause 22 of the Mysore Cotton Textile Control Order, 1948 as the matter relates to distribution and margins of profit of dealers respectively.

*Method of Distribution.—*

1. The State Nominees will function hereafter subject to condition laid down below with effect from the date of this notification.

2. The procurers of certain mills who were not entitled to procurers' margin will function hereafter as agents of the respective mills. They should sell yarn at ex-mill rate *plus* Sales Tax *plus* ½ per cent centage to be remitted to Government as before *plus* actual transport charges, if any. (They need not collect 1½ per cent procurers margin on yarn to be sold to the wholesalers as the collection of this margin has been waived by Government). But they should remit to Government centage and procurers' margin on stocks already sold to wholesale dealers.

3. The procurers *cum* consumers who were getting yarn from the mills direct for use in their factories are required to remit ½ per cent centage and 1½ per cent procurers margin on yarn already purchased by them. But they are required to remit ½ per cent entage only on yarn to be purchased hereafter and they are no more required to pay 1½ per cent procurers margin.

4. The procurers *cum* wholesalers have got to remit to Government ½ per cent centage and 1½ per cent procurers margin on yarn purchased direct from the mills and sold already. But on yarn to be purchased hereafter direct from the mills they are required to remit ½ per cent centage only.

5. The procurers who were hitherto entitled to procurers margin are classified as procurers *cum* wholesalers and they function subject to conditions laid down in para (4) above.

6. Where the above classes of distributors purchase yarn from mills direct either local or foreign under free sale or under Ad-hoc supplies they should remit ½ per cent centage to Government and declare such stocks to this office for issue of release order. In case such release orders are not issued within five days from the date of declaration they are free to sell such yarn under free sale to customers of their choice, provided they remit to Government ½ per cent centage before such sales.

7. Sri Shankara Textile Mills, Davangere, who were required to function as Nominees for their yarn sold in Mysore State should or credit to Government ½ per cent centage and 1½ per cent procurers margin on yarn sold by them to wholesale yarn dealers within Mysore State up to the date of this Notification. From the date of this notification they are required to collect and remit to Government ½ per cent centage only on yarn that they may sell to wholesale dealers who have their place of business within Mysore State.

*Wholesale Yarn Dealers.*

1 The wholesale yarn dealers will be allotted yarn out of the State quota as at present and they are entitled to charge 2½ per cent wholesale margin instead of 3 per cent as at present.

2 Wholesale yarn dealers to whom powerloom factories are attached are required to sell yarn to them as per the quota already fixed. In case such powerloom factories do not pay for the goods and lift the allotted quota within ten days from the date, the concerned wholesale dealer sends intimation to the powerlooms; then the quotas of such powerlooms may be treated as lapsed and may be sold to powerlooms or to retail yarn dealers of their choice.

3 Wholesale yarn dealers who are now attached to the Districts for purposes of yarn distribution to retail yarn dealers are free to sell yarn quota allotted to them to the retail yarn dealers of the Districts, to which they are attached.

4 Where the wholesale yarn dealers purchase yarn under free sale direct from the mills (either local or foreign) they are required to remit ½ per cent centage to Government and sell such yarn to powerloom factories or retail yarn dealers of their choice throughout the State, subject only to 2½ per cent wholesale margin. The right to sell such yarn will accrue to them only after crediting ½ per cent centage to Government and after declaration of such stocks to this office.

5 Yarn purchased by wholesale yarn dealers under free sale from the mills for purposes of export outside the State is subject to the same procedure as laid down in para 4 above.

*Retail yarn Dealers:—*

The retail yarn dealers in the State are free to purchase yarn without restriction as to quantity or count from the wholesale yarn dealers attached to their district and sell such yarn to the weavers attached to them as well as to any other consumer within the district in which they have their place of business. From the date of this notification they should charge 5 percent retail margin only calculated on Ex-Mill rate instead of 6¼ per cent as at present. They are free to purchase yarn and sell such yarn as indicated above and they need not await any distribution instructions either from this office or from the Deputy Commissioners of the Districts concerned.

In effect the margins of profits will be as indicated below on Rs. 100 Ex-mill value of yarn.

## OFFICE OF THE CONTROLLER OF CIVIL SUPPLIES IN MYSORE, BANGALORE.

Notification dated 27th April 1949.

**No. T. E. 605—48-49.** Consequent on the discussions at the meetings of the State Nominees (for procurement of cloth) and the representatives, of the wholesale cloth dealers in the State held on 22nd April 1949 and in supersession of all instructions communicated to the Amildars of the Taluks in regard to the allotment of cloth among the retailers of the Taluks concerned and also communications allowing free sale of accumulated stocks of cloth with the wholesale dealers subject to certain conditions specified therein, the following revised procedure is laid down for movement of cloth from the State Nominees to the retailers through the wholesale dealers in order to prevent accumulation of stocks of cloth at any stage so that cloth may reach the consumers more quickly through the retailers in the State :—

1 The wholesale cloth dealers are required to lift the goods allotted within *twelve days* from the date of Purchase Authorities written in their favour. In the event of failure to do so, the allotment in question automatically lapses and under no circumstances should the State Nominees supply goods to such wholesale dealers after that date. The Nominees should report in such cases, if any, on the 13th day from the date of Purchase Authority to the Controller of Civil Supplies the name or names of such wholesale dealers as have not lifted the goods as per Purchase Authority issued in their favour. The Controller of Civil Supplies will thereupon re-allot such unlifted goods immediately to any other wholesale dealer of the Taluk to which such goods relate or to any other wholesale dealer of the District concerned or of any other District, as the case may be. In the event of any wholesale dealer failing to lift goods for two consecutive allotments, his wholesale license will be cancelled.

2 Copies of Purchase Authorities whenever written in favour of wholesale dealers attached to the Taluks will be forwarded to the Amildars of the Taluks concerned and in the cases of Mysore City, Kolar Gold Fields and Davangere City to the Deputy Commissioner, the Rationing Officer and the 1st Class Magistrate respectively on the dates on which Purchase Authorities are posted to the wholesale dealers attached to the respective areas for arranging to issue, as heretofore, Purchase Permits in equal quantity in yards to all the retail cloth dealers of the respective areas. In the case of Bangalore City and Civil Station, however, Purchase Permits to the retailers of these areas will be continued to be issued from the office of the Controller of Civil Supplies.

3 Purchase Authorities to the retailers of the respective areas, as above, in the State will be issued from the Offices concerned within *twelve days* from the date of Purchase Authorities written in favour of the wholesale Dealers.

4 The retailers should lift the goods from the wholesale dealers attached within fifteen days from the date of Purchase permits issued to them from the offices concerned.

5 In cases the retailers do not lift the goods allotted as per Purchases Permits issued in their favour within *fifteen days*, as specified above, the wholesale dealers will have the option of selling the stocks of cloth with them after twenty-seven days from the date of Purchase Authorities to any licensed retal cloth dealers within the District concerned at not more than 1,500 yds. to each retailer subject to furnishing information in the A and B forms appended hereto to the Amildar concerned and to the office of the Controller of Civil Supplies.

6 The above revised procedure is applicable also to the stocks of cloth remaining unsold with the wholesale dealers after allotment by this office or by the concerned Amildars or the Deputy Commissioner, Mysore.

7 In case the retail cloth dealers fail to lift the goods for two consecutive allotments, their licenses shall be liable for cancellation.

**No. T. 2978—48-49.** In continuation of this office Notification No. T., dated 5th December 1948 and in exercise of the powers conferred on me by Section 32 of the Mysore Cotton Textile (Control) Order, 1948, I hereby issue the following instructions to the wholesale and retail dealers of cloth in Mysore State in modification of para 5 (*iii*) (*a*) and para 5 (IV) of the above notification.

2 In para 5 (*iii*) (*a*) of the above notification the dealers were required to issue cash receipts or credit notes clearly indicating the ex-mill rate and the maximum selling rate. Items such as transport charges, octroi and sales tax were required to be shown distinctly. In view of the notification No. T., dated 4th December 1948, fixing the maximum selling rate to the consumers, it is no more considered necessary to furnish the above details by the retail dealers in the bills, to be issued to the consumers. The dealers may indicate the ex-mill rate of the goods sold in the bill and add as maximum margin annas 3 over one rupee ex-mill value in the case of local mill goods and annas 3 and pies 6 over one rupee ex-mill value in the case of cloth manufactured in mills outside the Mysore State.

3 In para 5 (*iv*) of notification dated 5th December 1948, the dealers were required to furnish the variety of cloth in stock with their ex-mill and retail selling rates on the board intended for that purpose. It will suffice if they indicate the varieties of cloth in stock with ex-mill rates only.

4 The other instructions embodied in notification dated 5th December 1948, remain unaltered.

## OFFICE OF THE CONTROLLER OF CIVIL SUPPLIES IN MYSORE, BANGALORE.

Notification dated 27th September 1949.

### REVISED ARRANGEMENT IN CLOTH DISTRIBUTION

**No. T. 2369.** The present distribution arrangement remained in force since the re-imposition of controls with slight changes from time to time and continued to work satisfactorily from all points of view. Certain developments, particularly, in the Mills in Bombay, Ahmedabad and Sholapur necessitated the Textile Commissioner, Bombay, to allow the Mills to sell their unlifted or unallotted cloth to consumers of their choice in any place in Indian Dominion. As a result, the procurement of cloth from surplus areas is no more confined to the State Nominees and the wholesalers are also free to purchase goods direct from the Mills and sell to the licensed retailers. Though in the first instance the procurement of "Free Goods" was confined to the 'State Nominees, as per Notification No. T. 1153, dated 1st August 1949, issued from this office the latest position has however necessitated the withdrawal of the said restriction.

On a careful consideration of all aspects of the issue and in exercise of the powers conferred on me by clause 30 and sub-clause (1) (a) and (b) of clause 32 (1) of Cotton Textile Control Order, 1948, I hereby lay down the revised procedure in the matter of distribution of cloth of various mills throughout Mysore State :—

1. The three classes of dealers, *viz.*, Procurers, Wholesalers and Retailers are continued to function subject to the existing rules in force.

2. *State Nominees.*—(*a*) The monthly allotment of local mill goods, Buckingham and Carnatic Mill goods and Mettur Mill goods will be arranged in favour of State Nominees only as at present. Allotment of the above goods to the wholesalers will be arranged through the Purchase Authorities as heretofore.

Local Mill fents should be declared by the nominees as usual for allotment to readymade dressers in Bangalore City. Dhoty fents, Saree fents and longcloth fents need not be declared and may be sold under free sale.

In case the Local Mills should be in a position to offer local Mill goods under free sale to any State Nominee the goods so purchased should be declared to this office for allotment to wholesale dealers through the Purchase authority and such goods should not be sold under free sale.

(*b*) The allotment of monthly quotas of Bombay, Ahmedabad and Sholapur goods by the Textile Commissioner, Bombay, will be arranged as usual in favour of the State Nominees. They are free to procure out of allotted goods as much saleable quantity as they are capable of purchasing in Bombay, Ahmedabad and Sholapur and sell such goods to any wholesale dealers in the State without any restriction as regards quantity or variety after crediting to Government the usual centage of ½ per cent on Ex-Mill value.

Immediately on arrival of the goods in Bangalore the Nominees should declare the stocks giving particulars of the quantity in different variety with other particulars and commence sales after a lapse of 5 days from the date of declaration. In case certain varieties are in short supply in particular areas, the quantity and variety required will be allotted to the concerned wholesalers out of the declared stocks. Where the concerned wholesale dealers do not pay for and lift the goods within 5 days from the date the Nominees send intimation to the wholesale dealer the nominee may dispose of the allotted stocks under free sale to any wholesale dealers of his choice, after the lapse of 5 days.

Since the Nominees are now free to sell their regular quota to their own dealers, the responsibility for purchasing the required varieties of goods and their disposal solely rests on them and they should not under any circumstance approach for any kind of relief for the disposal of accumulated unwanted stocks which may arise owing to bad purchases.

The nominees are free to purchase any quantity of cloth from Mills in Bombay, Ahmedabad, Sholapur under free sale and dispose of the stocks to wholesale dealers of their choice subject to the procedure laid down above

(*c*) The nominees should furnish a statement of sales of Bombay, Ahmedabad and Sholapur Mill goods at the end of each month. One copy of such statement should reach this office not later than the 5th of the succeeding month and another copy forwarded to the Enforcement Officer, Bangalore, for information.

(*b*) The following procedure is laid down regarding the cloth that any wholesale dealer may purchase direct from the Mills in surplus area under "Free Sale" and for its disposal :—

The Notification No. T. 1153, dated 1st August 1949, confining purchases of free goods direct from the Mills to only State Nominees is withdrawn and the wholesale dealers in Mysore State are free to purchase "Free Goods" from Mills outside Mysore State.

Such wholesale dealers should declare the stocks to this office immediately the goods arrive in Mysore State giving details of quantity, variety, the names of mills, etc., from whom the goods are purchased and the ex-mill value of the goods purchased under free sale, in the form indicated below together with a challan for having credited ½ per cent centage and 2 per cent procurers' margin on the ex-mill value to "22 I. & C." etc., and await orders as regards disposal.

In case no instructions are issued from this office within five days from the date of declaration, they are free to sell the stocks to any retail licensed dealers in the State without any restriction as to the quantity and variety but subject only to 3 per cent wholesale margin over ex-mill rates. It should be clearly noted that no sales should be effected without crediting the ½ per cent centage and 2 per cent procurer's margin to Government. Even after the lapse of the above 5 days, the right to sell accrues only after the remittance of the amount due to Government on the declared stocks. When once they acquire the right to sell the goods, they are no more required to await any distribution instruction from any quarter except any allotment that may be made from this office within five days from the date of the declaration of the stocks by such wholesale dealers. Failure to adhere to the above instrtctions will ential cancellation of the wholesale license.

(c) As regards local mill goods, Buckingham and Carnatic Mill goods, Mettur Mill goods, allotment will be arranged at the discretion of the undersigned to wholesalers through purchase authorities from this office. The wholesale dealers are allowed to sell these goods to the retailers of the Taluks to which they are attached not exceeding 500 yards in quantity and not more than 250 yards in each variety out of each allotment. Such sales should be noted in the purchase slips attached to the licenses of retailers as at present.

(d) The wholesale dealers attached to the Taluks in different districts should furnish a statement of monthly sales to the Inspectors concerned so as to reach them on or before the 5th of the succeeding month in respect of sales of foreign goods and local mill goods in the form noted below :—

4. *Retail Cloth Dealers.*—The licensed retail dealers are free to purchase Bombay, Ahmedabad and Sholapur Mill goods under free-sale from any wholesale dealers in the State : Local Mill, B. and C. Mills and Mettur Mill goods from any wholesale dealers attached to areas to which they belong. As regards local Mill goods, they cannot purchase more than 500 yds. from any one wholesaler and not more than 250 yds. of any one variety within the 500 yds. limit against each allotment. But there is no restriction in their purchasing local mill goods from more than one wholesaler attached to the Taluk. In any case, they should obtain entries of sales of goods either foreign or local in their purchase slip attached to their respective licenses to enable checking and supervision over such purchases by the departmental staff.

5. *Margin of Profits.*—Margin of profit and other charges as they relate to the different classes of dealers with regard to superfine, fine, medium and coarse cloth and local mill goods, B & C Mill goods, Mettur Mill goods should be scrupulously followed and the limits should not be exceeded by any class of dealers. Any infringement of this condition will be construed as violation of sub-clause (1) (a) of clause 22 of the Mysore Cotton Textile Control Order, 1948 and the dealers concerned are liable for prosecution.

The above revised arrangements are brought into force not only to afford relief to the dealers under the present slump in cloth market but also primarily to help the consumers to take advantage of varieties they are used to, out of abundant supply of cloth at controlled rates. The dealers in particular are cautioned before hand that any tendency of anti-social activity on the part of a few of them will necessitate the cancellation of the concessions now extended and revert to the existing distribution restrictions. It is hoped that the trade interests will appreciate the critical period through which the country is passing and extend their wholehearted co-operation so as to make the revised arrangement a success thereby paving the way for the early removal of all restrictions. By such co-operation they will earn good-will of the consumers in whose interests the present cloth control is exercised at present.

The above revised distribution arrangements will remain in force till 15th November 1949.

Supply of Typewriters.

I have the honour to invite reference to Government of India Department of works, Mines and Power, letter No.A.756(8) dated the 12th September, 1946, regarding withdrawal of the typewriter control Order, 1943 and to say that under the scheme of centralised procure - ment of typewriters for Government use the requirements of type- writers of the provincial and Indian State Governments are to be obtained by placing indents on this office or the Central Stationery- office Calcutta, as the case may be. Also under the agreements centered into with the major typewriter firms in India, the latter are forbidden to supply typewriter firms direct to Government indentors except on the orders placed by the Central Stationery office, Calcutta.

2. It has been brought to the notice of this office that type- writers have been purchased by some of the provincial Government offices of the Indian State Governments direct from some of the typewriter firms without referring the demands either to this office or to the Deputy Controller, Stationery, Calcutta. As such direct purchases are against the scheme of centralised procurement a[illegible] contravene the agreement between the typewriter firms and thi[illegible]ffice, it is requested that necessary instructions may kindly be iss[illegible] to the various Government indentors under the provincial Gove[illegible]nt to ensure that the prescribed procedure is strictly adhered t[illegible] them and that no typewriters are purchased by them direct from any of the Typewriter firms.

3. In extremely urgent cases when it is not possible to follow the prescribed procedure, the provincial Government indentors may approach this office or the Central Stationery office, Calcutta, telegraphically for typewriter supplies and arrangements will be made for expeditious supplies against such demands, but none of the typewriter firms may be approached direct for the reasons mentioned above.

SCHEDULE A.

(*See* clauses 2 and 11).

## EXPLANATORY NOTE.

### The Different Parts of the Schedule.

1. Part (i) includes common medical preparations which contain the same active ingredient as many preparations manufactured by the different firms under different names. The maximum prices specified in Part (i) will apply to any such preparation which is not included in Part (ii) under its proprietary name. Pharmaceutical chemicals are shown in Part (iii). Infant and Patient Foods and allied articles are shown in Part (iv).

### Prices to be treated as maxima.

2. The ceiling prices are maximum prices and any controlled drug may be sold at a lower price than the ceiling price fixed for the drug.

### Part (iii) Prices.

3. The prices fixed in Part (iii) are for chemicals of standard pharmacopoeial quality. They do not apply to chemicals sold for industrial purposes or to chemicals of inferior quality, the prices for which should be considerably cheaper. On the other hand these prices do not also apply to chemicals of a higher standard of purity which are intended for laboratory work or for use as analytical re-agents.

### Wholesale and Retail prices to be nett.

4. Except as provided in paragraphs 8, 9 and 10 the ceiling retail prices for drugs purchased at the retailer's place of business are inclusive of all incidental charges such as cost of containers, freight and packing. The ceiling wholesale prices in Parts (i), (ii) and (iv) are inclusive of incidental charges such as cost of containers, packing and goods freight, but if the wholesaler dispatches the consignment by passenger train or by post he shall be entitled, in addition, to recover from the consignee not more than half the difference between the freight cost or postage actually incurred and the freight cost which would have been incurred if the consignment had been sent by goods train.

### Wholesale prices for Assam.

5. In the case of drugs consigned for delivery to Assam retailers through the Civil Supply Agency set up by the Government of Assam in Calcutta, the wholesale price of drugs specified in Parts (i) and (ii) of the Schedule shall be fixed at 15 per cent less than the retail price notwithstanding the prices specified in column 3 of Parts (i) and (ii) of the Schedule. The wholesale price is inclusive of packing and freight to Calcutta.

### Prices of original packings not specified in Parts (i), (ii) and (iv).

6. When a drug specified in Part (i), (ii) or (iv) is sold in an original manufacturer's or importer's packing which is not specified in the Schedule, the price of the unspecified packing should be calculated on the basis set out in clause 3(*b*) of the Order, provided that the price so fixed does not exceed the price calculated *pro rata* on the price of the next smaller packing specified.

**Prices of Split quantities of drugs in Parts (i) (ii) and (iv).**

7. When a drug specified in Part (i), (ii) or (iv) is sold by a retailer in loose quantities, the price for such loose quantities should be worked out *pro rata* on the price of the packing specified or where two or more packings are specified *pro rata* on the price of the next larger packing specified. If the loose quantity is supplied in a container the retailer may charge extra for the container up to the maximum laid down in para 10(a) of the Explanatory Note.

**Permissible extra charges for all drugs.**

8. If the retailer has to pay a local octroi, terminal tax or sales tax amounting to one per cent or more of the retail value of the drug sold, he may charge extra for such octroi, terminal tax or sales tax provided that the extra charge is separately noted in the cash memo, given to the purchaser. Similarly, if a wholesaler has paid octroi, terminal tax or sales tax amounting to one per cent or more of the retail value of the drugs sold to a retailer who does not also have to pay any such octroi or tax in respect of the same consignment, he may charge extra for such octroi or tax from the retailer and the retailer may recover the extra charge from the purchaser provided that the extra charge is separately noted in the cash memo given by the retailer.

**Permissible extra charges for drugs in Parts (i), (ii) and (iv).**

9. Retailers whose place of business is situated in the following hill stations where extra transport costs have to be incurred may charge a maximum of five per cent, more than the retail prices specified in Parts (i) (ii) and (iv) of the Schedule in addition to any extra charge which they are entitled to make under paragraph 8, provided that the extra charge is separately noted in the cash memo, given to the purchaser :—

**Prices of original packings not specified in Part (iii).**

11. (*a*) When a drug specified in Part (iii) is supplied by the manufacturer, importer or wholesaler in original containers which are not otherwise specified in the schedule the following formula should be used to arrive at the controlled wholesale and retail prices :—

The price of 8 ozs. in cartons or bottles should be 5/8 of the price specified for one lb. cartons or bottles respectively.

The price of 1 oz. in cartons or bottles should be 1/8 of the price specified for one lb. cartons or bottles respectively.

(*b*) The prices specified in Part (iii) are for one lb. original cartons or parcels unless otherwise stated. Where the price of a drug is given in bottle packing the same price will apply to the same drug packed in a tin unless otherwise stated. Where a drug is sold in a one lb. bottle or tin and no price is specified for such packing, the bottle or tin may be sold at 8 annas more than the price specified for cartons, parcels or loose quantities. Similarly, where the price specified is for a 1 lb. bottle or tin and a drug is sold in a one lb. carton or parcel or in loose quantities, the controlled price of the drug shall be deemed to be reduced by 8 annas.

**Rounding off of pies.**

12. If fractions of an anna appear in the total price of any drug when calculated under paragraphs 5, 6, 7, 8, 9, 10(*a*) and 11(*a*) of the Explanatory Note, the total price so calculated should be rounded off to the next higher anna.
